

# Carboxy

MICROBIOME & IMMUNE SUPPORT\*

## KEY BENEFITS

- Promotes cellular health\*
- Provides potent, specialized binding\*
- Supports more intensive detoxification efforts\*

## PRODUCT DESCRIPTION

Carboxy is a potent binder that contains short- and long-chain carbons that travel beyond the gut and into different parts of the body.\* The proprietary BioActive Carbon® formulation of humic and fulvic acids in this product reinforces a balanced gut microbiome to help systematically support the whole body.\*

The carbons in Carboxy are also covalently bonded and have more bioavailable energy than spent carbons common with other binders, such as activated charcoal and diatomaceous earth.

## LABEL INFORMATION

**Directions:** Dilute up to 1 scoop (1/4 teaspoon or approximately 0.75 g or 750 mg) in about 8 fl. oz. of water once daily, or as otherwise directed by a healthcare practitioner. Can be taken with or without food.

**CAUTION:** Please consult your healthcare practitioner before use if you are pregnant, breastfeeding, or considering use for a child. Store in a cool, dry place.

**KEEP OUT OF REACH OF CHILDREN.**

\*These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure, or prevent any disease.

By providing the essential building blocks of carbon, hydrogen, and oxygen, this product assists the body's natural ability to bind and repair on the cellular level, bolsters cellular energy production, and supports regular detox.\*

Because of the higher concentrations of active carbons in Carboxy, this binder is recommended for those who have taken other BioActive Carbon® binders as part of their wellness routine and are past the beginning stages of promoting detoxification.\*
